Old Business:

- Bill- flag poles are in with signs and flags from Fritz. Member vote on changing which bays are open/closed in accordance with the new flags for the different bays. 25 and 50yd bays are under one flag, with the 100/200yd bays with a separate pole, flag and sign. From Tim- how guns are handled at bays the issue.
Explanation: if a bay is closed, then no firearms (or ammo) are to be handled at those bays involved. The rules of open/closed bays pertains to each of the flag areas where the pole/flag is located. [Try to park as close as possible behind the bay you are using]. The members vote was an easy majority in favor of having separate bays open/closed by separate flags. Two votes in opposition.
